

# TOWNSHIP OF LOGAN

This brochure details the collection of solid waste and recyclable materials in Logan Township. It is designed to be significantly more cost effective and provide a cleaner, more attractive community. Please read the attached material thoroughly and feel free to contact the Department of Public Works Office at 467-0859 with any questions.

## ABOUT THE COLLECTION SYSTEM

### The Cart

The Township purchased and distributed the carts which are specially constructed to be used in an automated or semi-automated collection system. The cart is designed for ease of handling, durability and has a lid which keeps odors in and moisture out. It is the only container which can be used with for trash collection.

The cart is being provided by the Township and has a serial number that corresponds to your address. The cart is the property of the Township. If a resident sells their property, the cart must remain at the address. **DO NOT REMOVE CARTS FROM RESIDENCE.**

Unless a smaller container was requested, all residents received a 95 gallon cart. The capacity of the 95 gallon cart is more than three times greater than the standard residential can. There is a weight limit for each cart size. The 35 gallon cart can accommodate up to 100 pounds of waste. The 65 gallon cart will accommodate up to 200 pounds of waste. The 95 gallon cart will accommodate up to 300 pounds of waste. A cart filled with standard household waste will not exceed these limits. You must call the Department of Public Works if you have excess trash or recycling that does not fit in your carts.

### Recycling

Logan Township will now be going to the *Single Stream* method. This means that you will place **ALL** recyclables (plastics, glass, cans, paper, and cardboard) in the **BLUE** 95 gallon cart. Please ensure that cardboard is cut down to fit inside the cart.

### Trash

Please place **regular household waste** in the **BROWN** 95 gallon cart. Please ensure that all regular household waste is properly bagged and placed inside the trash cart.

**\*\*\*Pet Waste should be properly bagged and placed inside the brown trash cart\*\*\***
